A CALL TO THE WHITE COMMUNITY TO STAND IN SOLIDARITY WITH BLACK LIBERATION

TAKE THE REPARATIONS CHALLENGE! REPARATIONS FOR STOLEN BLACK LIVES!

I believe that the legacy of enslavement, Jim Crow and the countless stolen lives for African people in the US continues to be an historic wrong that must be rectified.

I recognize this history is the basis for the police and white vigilante murder, mass incarceration, extreme poverty and other conditions that continues to haunt black communities, as white families now have 22 times the wealth of their black counterparts and black teenagers today face more than 40 percent unemployment.

I oppose the targeting of black communities by policies of genocidal policing and discriminatory sentencing guidelines resulting in police brutality and more than a million African people in prisons rather than African economic power and self-determination.

I pledge my commitment to the African-led movement for reparations, self-reliance and justice, and stand in support of a Day in Solidarity with African People.
